

A Peek

into **THE AMAZING NEW WORLD OF TOMORROW**

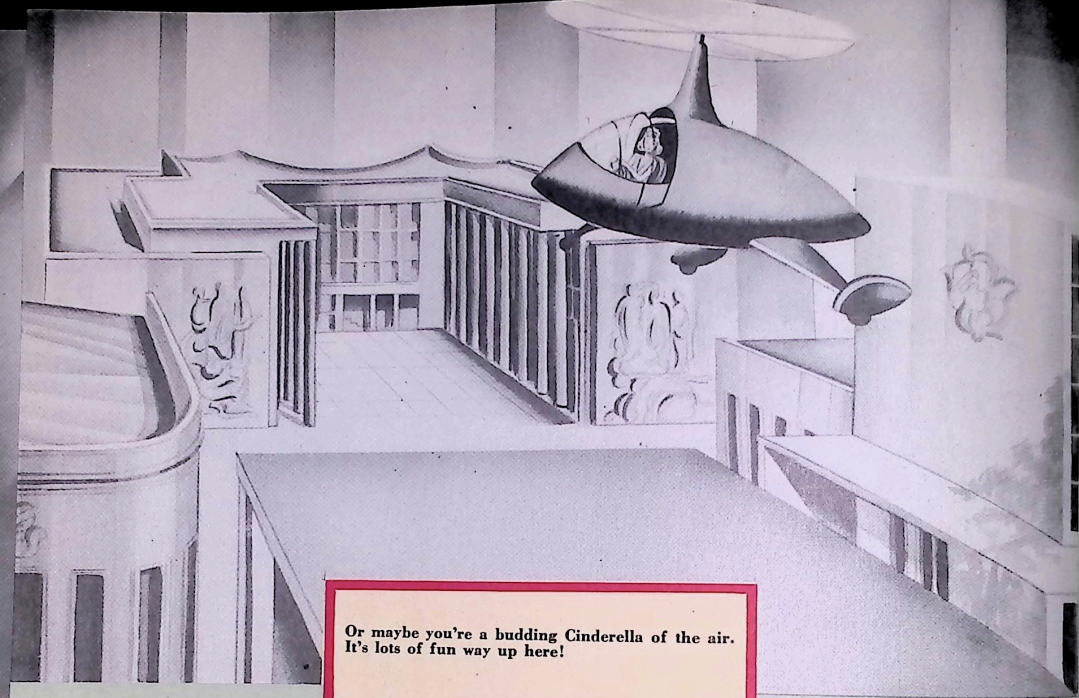

Step through the mirror of the future and visit the land of make-believe today . . . The land of reality in a not-too-distant tomorrow.

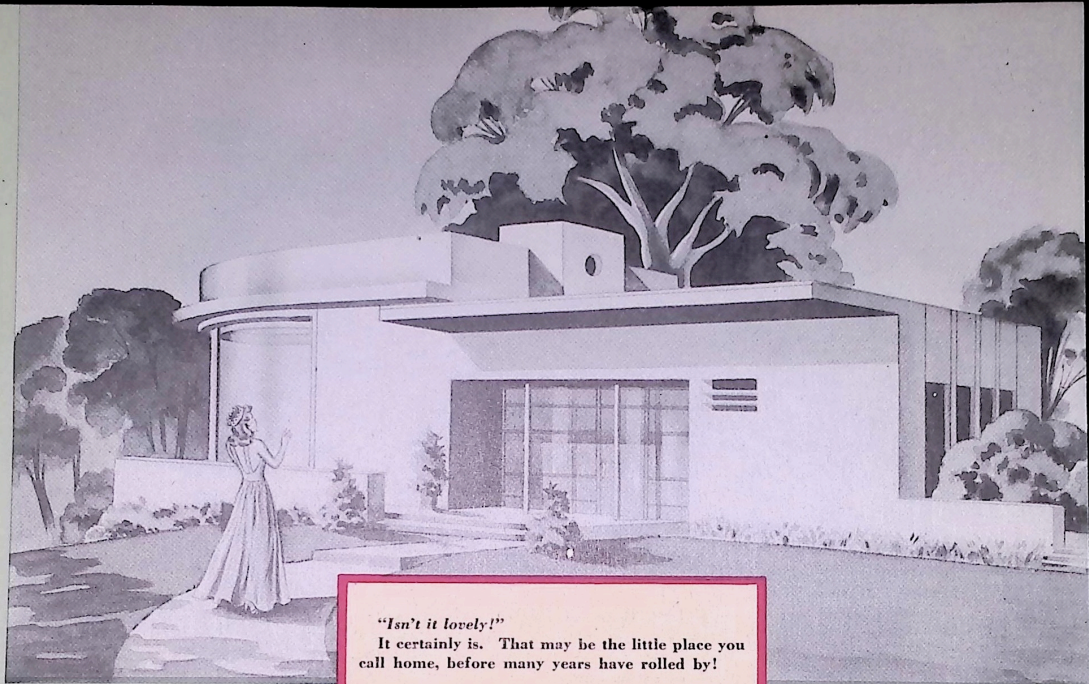

"What in the world is that?"

That, my dear, is the car you may be driving . . .
a few years after the war. Like to take a ride?

**Or maybe you're a budding Cinderella of the air.
It's lots of fun way up here!**

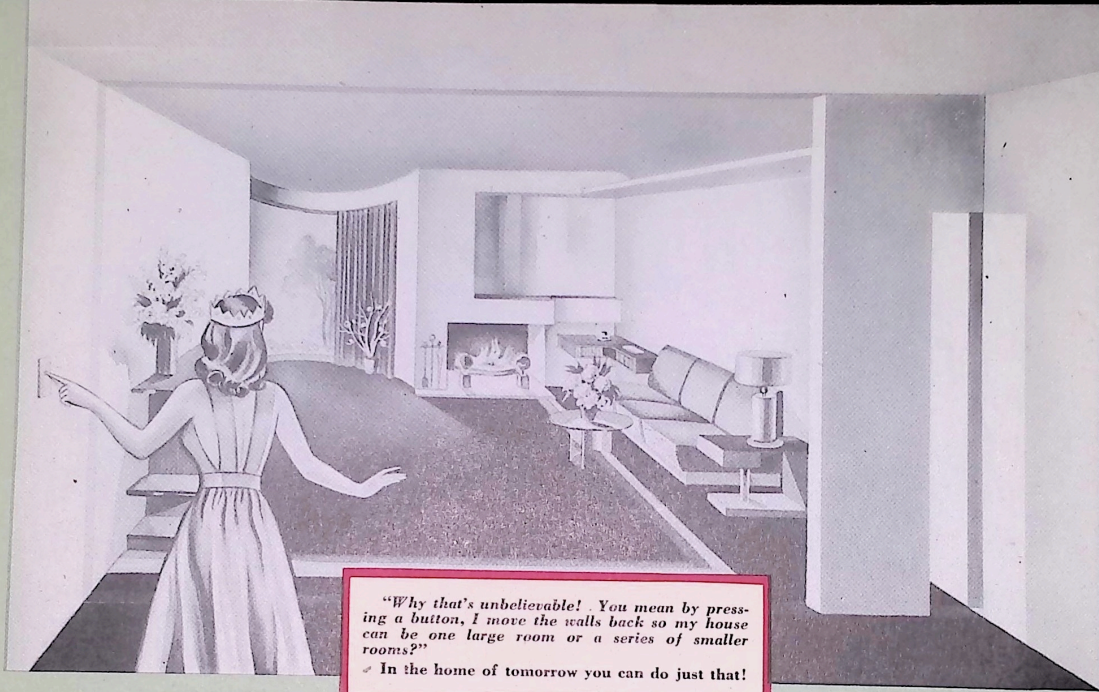

"Isn't it lovely!"

It certainly is. That may be the little place you call home, before many years have rolled by!

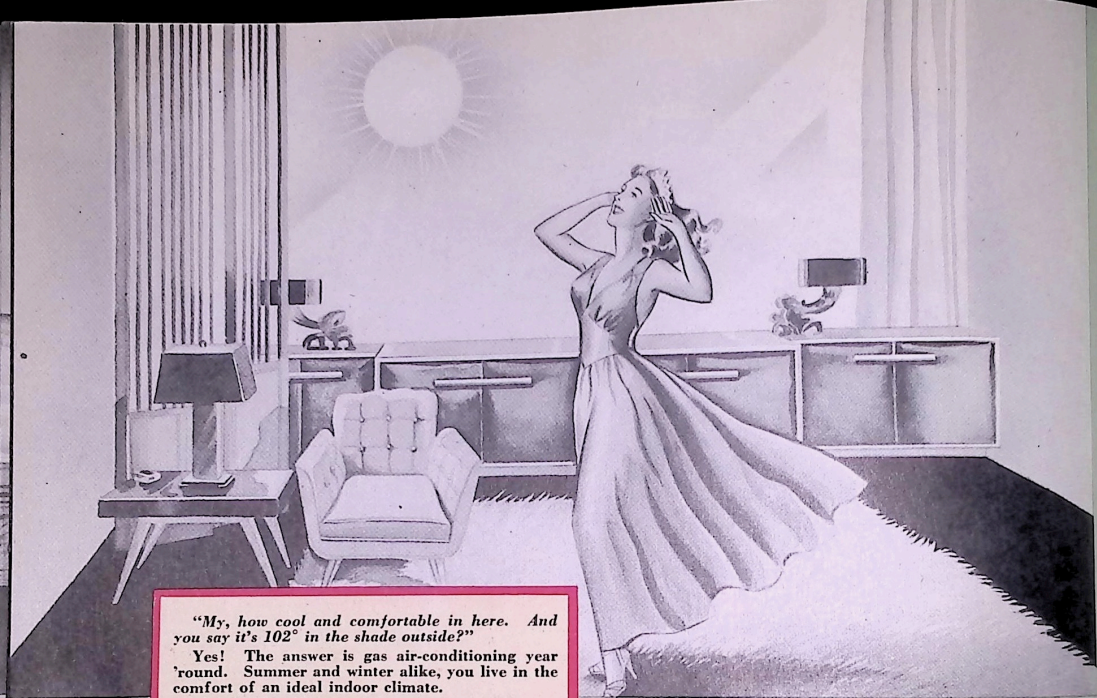

"Why I've never seen such attractive furniture!"
Just as comfortable as it is attractive, too. But
don't forget, my fairy princess, you're enjoying
a preview of the future.

"Why that's unbelievable! You mean by pressing a button, I move the walls back so my house can be one large room or a series of smaller rooms?"

• In the home of tomorrow you can do just that!

"My, how cool and comfortable in here. And you say it's 102° in the shade outside?"

Yes! The answer is gas air-conditioning year 'round. Summer and winter alike, you live in the comfort of an ideal indoor climate.

"I surely want to look in there."

"Isn't it delightful! So well arranged and compact."

That's the gas kitchen of tomorrow. It's so clean—so all-round desirable. There's nothing like Gas for use in the modern kitchen.

ROPER—"America's Finest Gas Range."

"Every one gets nicer."

Yes! You'll really enjoy the full degree of cleanliness, coolness, ease and economy when you cook with gas, the wonder fuel for full-flavor cooking.

ROPER—"America's Finest Gas Range."

"My, what a beautiful gas range! Are they really going to be like that?"

Maybe not exactly like that. But certainly every bit as nice. It's a new Roper—the favorite of American housewives for over 59 years.

ROPER—"America's Finest Gas Range."

"Cooking will surely be thrilling when I have this kind of modern gas equipment."

Thrilling as thrilling can be. Fast, low-cost, dependable. You'll enjoy cakes, pies, cookies, complete meals, meats—savory dishes done to the taste of a princess.

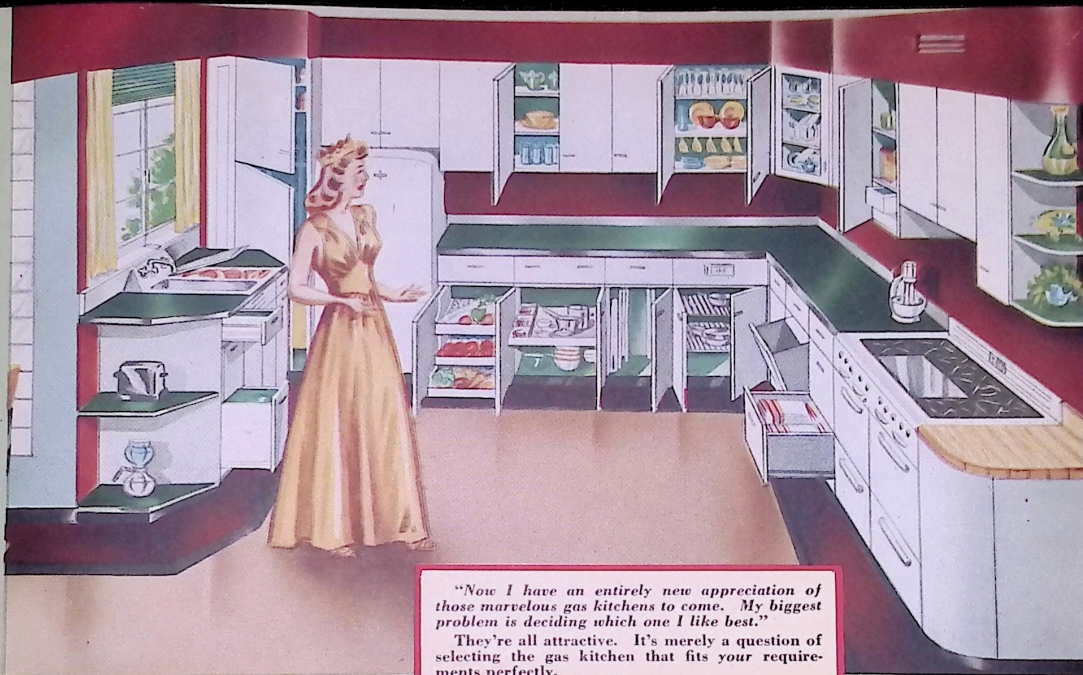

ROPER—"America's Finest Gas Range."

"There are convenience features in this kitchen I've never even dreamed about before—everything for cooking, refrigeration, water heating and keeping comfortable. You say it's all done with gas?"

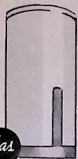

Yes, gas, the flame that will brighten your future—the finest fuel known to man.

ROPER—"America's Finest Gas Range."

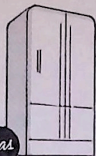

"Now I have an entirely new appreciation of those marvelous gas kitchens to come. My biggest problem is deciding which one I like best."

They're all attractive. It's merely a question of selecting the gas kitchen that fits your requirements perfectly.
