John —

Hi! I've attached 2 letters sent to Osvaldo concerning his application into the Maintenance Department. He is desiring another interview with you. (Also attached is a copy of his Supervisor's card). Can you possibly see him & leave word with the clerk. I'll be off the next 3 days. His days off are Friday & Saturday.

P.S. A Personnel Inventory & Facilities Trainee Program should be on file there with you!

Thanks

PERFORMANCE REVIEW.

[REDACTED]
[REDACTED] the interest you have shown toward your work for the most part has been low key. The self direction you've been lacking would possibly build a higher interest level and improve your performance. Your presenteeism is also in need of improvement. The bulk of the problem seems to lie in not allowing enough time to consistently be on the job on time. A few extra minutes just might do the trick.

With appearance and grooming, you have met the Disney standards and that is much appreciated. But as far as expression, you appear to display a lot of negativeisms. A far better outlook, which also allows for better adaptability & cooperation is positiveism. This gives less obstacles that might stand in your way. And you aren't one to allow barriers to exist.

Your work is performed systematically and you have an awareness of safety and its importance. In order to better yourself, make more of an attempt to reach your full potential. You have not as yet done so and are quite capable. Possibly the interest is not there, but the potential is. You have again proven yourself to be efficient and demonstrated quality workmanship but only where the interest lies. Therefore less dependability is evident and again with effort could be changed, not only to benefit the company but also yourself.

With much future ahead of you who knows what could happen. But when recap-
ping my points, I only hope that they can be used constructively and that
if I can be of help, please ask.

Best of luck.
